

...feels like Family Gift Certificate Program

Nothing is more precious than the love and affection we feel toward those we care for!

Did You Know.....

At Home Healthcare has made it possible to express these feelings through your generous giving of a “*feels like Family*” gift certificate. We now offer “*feels like Family*” gift certificates because we get comments from our current and prior clients stating that the caregiver in their home is like having a member of their family take care of them, it “*feels like Family.*”

Our caregivers are available 24 hours a day, 7 days a week to sit with your loved one in their home, the hospital, an in-patient hospice or other type facility. We perform a thorough background check and caregivers are bonded, insured, and receive on-going training and supervision.

To get your certificate:

- Contact At Home Healthcare at **1-877 MY NURSE** (1-877-696-8773) or **903-525-3720**.
- Determine how many hours of sitter service you want to “gift.”
- At Home Healthcare customizes your gift certificate and presents the gift on your behalf.
- Our staff contacts your loved one to schedule their service admission.

We will work with your loved one to determine any specific personal traits that may be preferred in a caregiver to allow us to identify the best caregiver match for your loved one.

Let us help you express your love and concern by providing our excellent sitter services through your “*feels like Family*” gift certificate. Your loved one will appreciate you for it all the more! You will know that your loved one is in a caring environment that truly “*feels like Family.*”
